

Operating Results at Scale

Brian McConnell | Operations & Transformation Executive

\$700M+

Enterprise value preserved

Cut the fallout ratio from 3.0% to 0.09% by redesigning execution workflows across 50+ branches.

\$30M+

Saved on a \$1.1B litigation mandate

Directed the design and build of a review system that compressed a 2+ year projected timeline to under 7 months.

82%

Enterprise-wide efficiency gain

Replaced a 60-platform legacy environment with 25+ custom applications on Azure, on time and on budget, with zero operational downtime.

65%

Infrastructure cost reduction

Migrated 175+ servers and 45TB to Microsoft Azure and eliminated 100% of on-premise technical debt.

98.9%

Cycle time reduction, advisory

Advised a Fortune 500 client. Identified and mapped the consolidation of 6 manual systems into one, a path from 8 hours to 5 minutes for subpoena processing.

\$5M+

Annual eDiscovery savings

Directed an in-house program that scaled to 200+ concurrent matters.

\$2M+

Paperless transformation

Transitioned operations across 12 business entities to paperless, managing a digital document corpus of 120M+.

\$10M+

Cumulative storage savings

Reduced 175,000+ archived boxes to under 150.

The industry changes. The complexity changes. The standard does not.
